

"That video has set me off! It's hit home how much our students are missing out on by not being in College, and how much we offer our students in terms of opportunities, enrichment and being part of the wider College community.

Fingers crossed we can return to this type of schooling sometime soon."

"That video has just made me cry! Miss Ivybridge so much! Thanks for sharing! Take care."

"Sobbing over my laptop at the video!!"

"Thank you for keeping us together, these few months have been really hard for me as you may know losing loved ones to Covid and not being able to see my friends and family in London during this hard time.

I must admit what has got me through it all is work. I am so proud of working at Ivybridge and appreciate all the support you have given to us all."
