

Any Dream Will Do Performance Guidance

When you are filming your performance, please consider the following:

- Your phone/tablet should be turned so that you film yourself in landscape – this will make adding you to the collective video much easier!
- Think about where in your home you are filming – you shouldn't be filming in your bedroom. Perhaps if the weather is nice you could film outside in your garden!
- Try to listen to the backing track through headphones on another device when you record, so that we can only hear you.
- If the last lines 'Give me my coloured coat' seem too high for you, then sing the male singer's line, or sing the female line an octave lower.
- Smile!
