

## **Instagram Launch and Competition – Open to all**

The BSMS Admissions and Outreach Team have joined Instagram and to celebrate we're holding a competition. We'd like to hear what medicine means to aspiring medics in 2021. Maybe their idea of what it means to work in healthcare has changed over the past year? Or students have gained a better understanding of what pursuing medicine in the future means? Maybe the New Year has just re-energised their passion and drive to study medicine? Whatever medicine means to aspiring medics in 2021 we want to hear about it. We'll be running a competition over on our Instagram page and entries can be submitted in whatever format students would like; a poem, a picture, a video, an interpretive dance, a one-person theatrical performance - however they would to express what medicine means to you we'd love to see it! The competition is open until the end of February, so anyone wishing to participate can head over to our [Instagram page](#) (@BSMSOutreach) to find out how to enter!
