

Latest Advice from Public Health Devon in relation to Ivybridge Community College

Following an increase in the number of confirmed positive COVID-19 cases across the College, we have been advised by Public Health Devon to remind all parents and carers of the following:

- We strongly encourage all students to continue with twice weekly lateral flow testing to help identify cases promptly. These should be conducted at home and parents/carers are requested to notify the College of positive test results using the covidnotification@ivybridge.devon.sch.uk email address.
- The College will continue to provide hand sanitising stations in all classrooms and main entrances to all buildings. Please encourage your children to wash their hands regularly and hand sanitise throughout the day.
- Existing ventilation measures will remain in place.
- We are asking that all students return to the wearing of face masks in communal areas indoors and when moving between classrooms from Monday, 27 September 2021.

In accordance with DfE guidance the College will continue to run as normal and we will keep you informed accordingly.

Please may we thank you in advance for your continued support and we invite you to visit the College website for further information on this matter.
