

# BSMS MONTHLY LECTURE SERIES

FOR SECONDARY SCHOOL AND COLLEGE STUDENTS

## Dr Karen Patterson

### Understanding vaccine hesitancy: is there room for respect?

"I will be covering a review of history of vaccine hesitancy, and unpack particular aspects of COVID-19 vaccine fears. I'll review the (scant) data on getting people to change their mind about medical decisions. As a pro-medicine, pro-vaccine person, I'll pose the controversial question of how righteous we're allowed to be when patients make "poor" decisions."

**Wednesday 2 February, 6:30pm - 7:30pm**

**Live-streamed online via Zoom**

Tickets are free but must be booked online
