

How can I best support my child's home learning?

Do	Don't
Be interested	Worry about knowing all or any of the answers
Be a good listener	Say answers even if you do know them, ask questions to unlock the answers
Ask coaching questions to support next steps (see next slide)	
Help students to create revision plans (slide 3)	
Guide students towards help in college – help them to ask teachers for help	
Just be there, sitting with them while they work	
Provide drinks and food to keep them going!	

GROW.

GOAL. REALITY.OPTIONS.WHAT/WHEN/WILL

GOAL

What is your current goal? By when exactly?
What words would sum up where you want to be by next week?
What will it look like if you achieve your goal?
What does success look and feel like?

OPTIONS

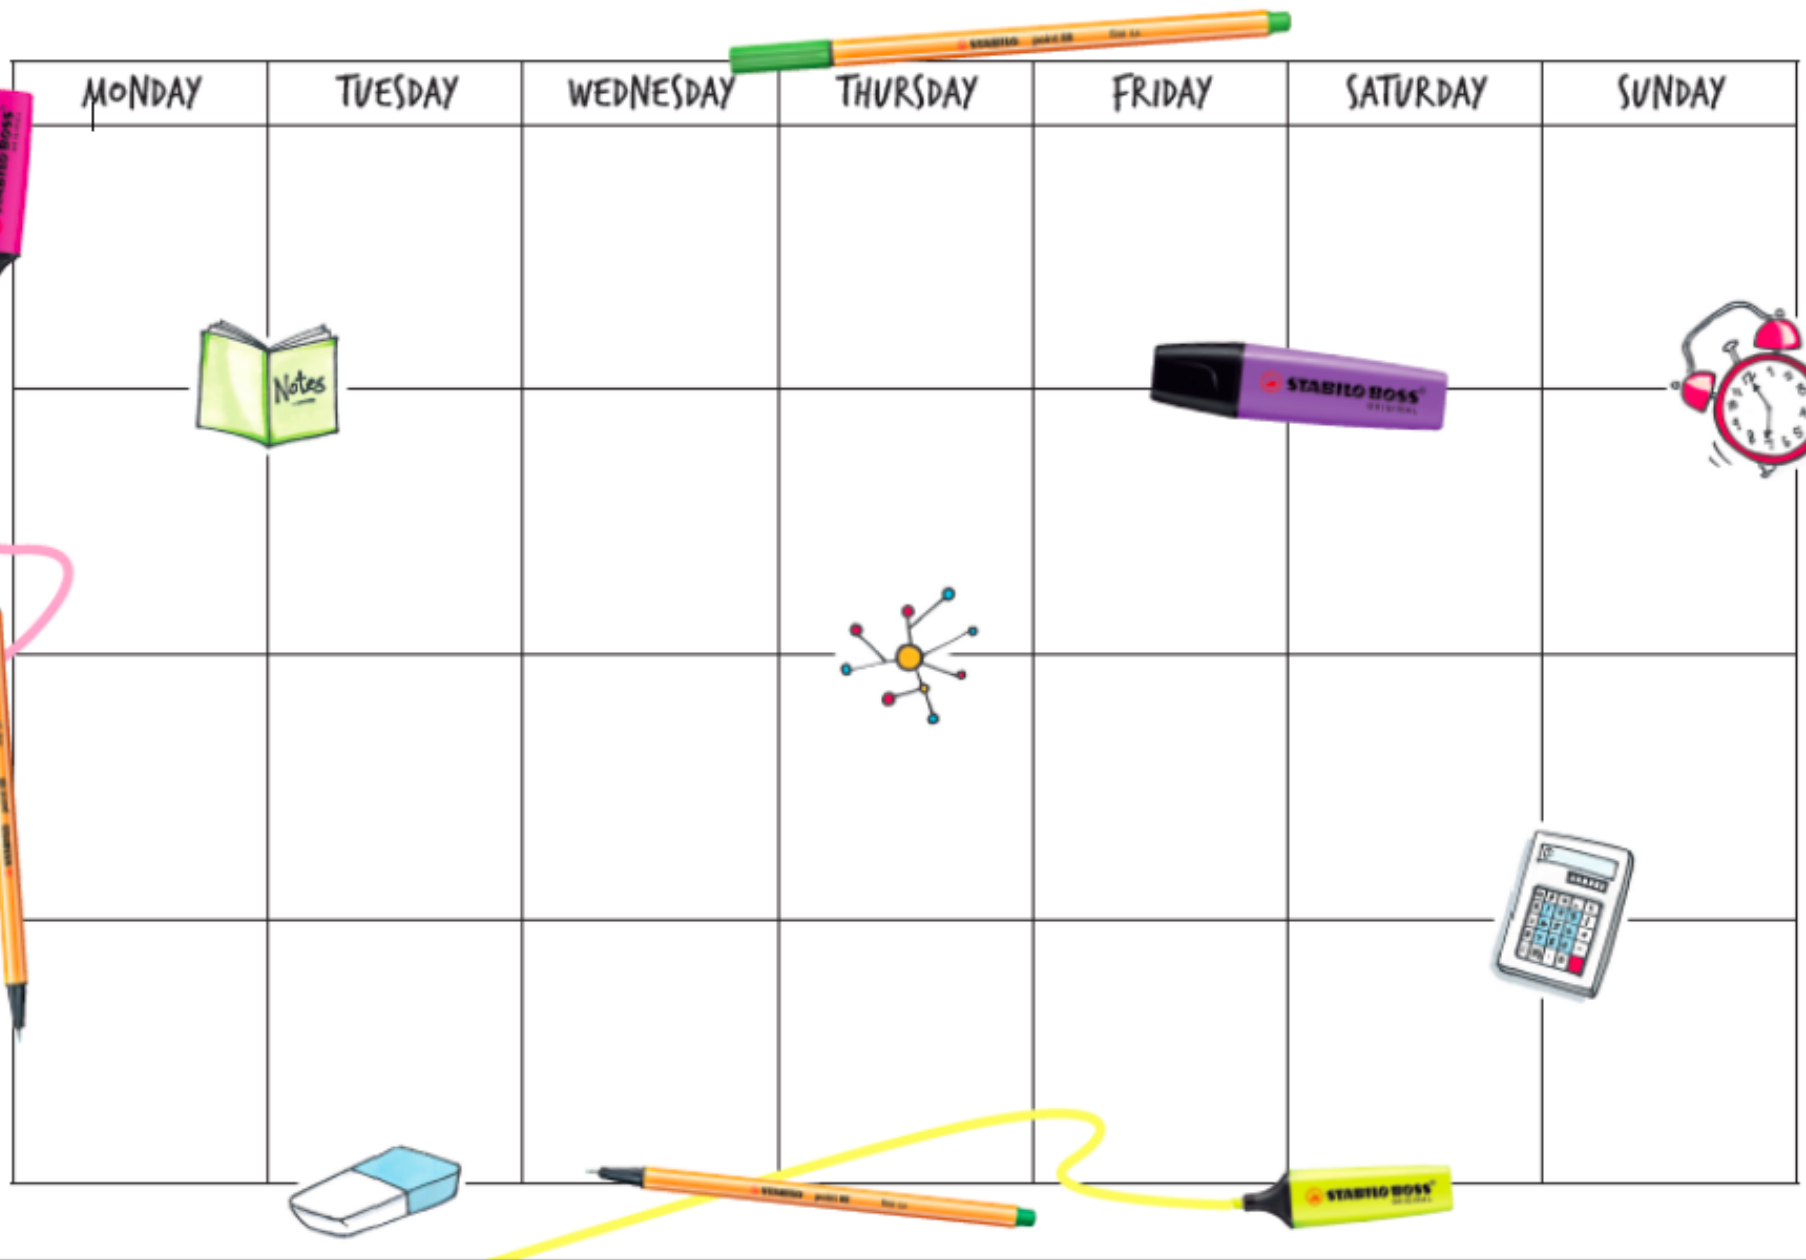

What options do you have? What else could you do?
You've given me 3 options, give me 1 more?
If you had more/less time what would you do?
If you could enlist anyone's help who would it be?
If you had total power what would you do?

REALITY

On a scale of 1-10 where are you now?
What have you done about this so far?
Who is directly/indirectly involved?
What is holding you back?
How often have you tried?
What would an 8 look like?
What would you need to do to move one step up the scale?

What/When/Will

What is your preferred option?
What are you going to do?
Will that meet your goal?
When are you going to do it?
What obstacles might you face?
How will you overcome these obstacles?
Who needs to know?
