Overview of the course:

This two-year course provides an excellent stepping stone for those wishing to pursue a career in Performing Arts, or who would like to progress onto an appropriately related course or occupation. This course would lead to a BTEC Extended Certificate in Performing Arts (equivalent to one A Level) and can be studied alongside other BTEC qualifications or A Levels to support progression of knowledge in the sector of Performing Arts. Having additional studies alongside this qualification allows students to obtain a wider breadth of subject knowledge, especially if choosing a contrasting subject. Likewise, students can choose subjects which lend more focus to pursuing a Performing Arts career, in subjects such as A Level Drama and Theatre Studies, Dance or Music.

Where the BTEC in Performing Arts differs from A Level is that it has practical led elements which drive the course. Students should expect to be involved in rehearsal and performance activities at a consistently high standard, which requires a great deal of focus, discipline and professionalism. Students will be taught by three specialist subjects within their field, of acting, singing and dancing, so standards will be high.

The BTEC will provide students with the opportunity to learn, enhance, and combine three key Performing Arts skills to a professional standard, of acting, singing and dancing. Through its approach students will gain a unique understanding of the focus and discipline needed in order to perform.
