Dear Parent/Carer

Re: First Aid Training

Following the publication of guidance from the Government, we are about to embark on training all Year 7 students in basic First Aid. Harley Street physiotherapist, Jill Chapman MCSP SRP, is coming to the College to lead the training and she will be supported by First Aid trained students.

All students will learn about basic cardio pulmonary resuscitation (CPR) and how to use a defibrillator. If you would like your son/daughter to carry a First Aid face shield in order that they can deliver CPR without contact with the casualty, you can buy them on ParentPay for 50p.

First Aid face shields will be ordered after the sessions have finished.

Yours faithfully

Helen Ryder
