

Update and Guidance

I hope you are all well and have had a great week. It has been a really successful week for our first week of partial re-opening. It was great to see some of you when I have been in, and I am looking forward to seeing more of you over the next few weeks! I hope you feel the same way that I do, in that these offer a fantastic opportunity for you to start getting back into the routine of working and giving you a vital chance to speak and get face to face guidance on some key areas.

In a week that has seen shops re-opening, schools partially re-opening, and a lot of other changes to our social distancing measures, it is more important than ever that we individually manage the risks involved. This means that we must be very mindful of our own distance from others, being respectful of these distances, and as we move into times that may remind us of the old normal, we shouldn't be complacent of the progress that we have made as a country. As I have said, and others will note, it is those vulnerable people in our society that we are protecting through these measures, thank you.

Finally, if you have not already, please could you take the time to complete the following [survey](#).

This is separate to the Return to College feedback questions which were mentioned in the main email.

This will give us the chance to hear your voices and for you to let us know how things have been, as well as indicate what could be changed. Thank you for taking the time to complete this.

Home Learning Update

This week you will have hopefully watched the Assembly and been able to attend your first virtual Tutor session. I hope that this has been a success. If you were unable to attend for any reason, including being in College on that day, please email your Tutor to let them know – this will hopefully save a lot of time in the long run and get that conversation started.

A reminder that all distance learning will continue to be set and processed each week and these submissions will remain in place fortnightly. Again, this may require a slight re-shuffle of your Home Learning timetable so please be mindful of this! If you are having any issues, remember to email your teachers, Tutors or use the Year 10 support email (Year10support@ivybridge.devon.sch.uk)

Submission 4 – Friday, 26 June

Challenge

Last week's answer:

The 7 Seas!

CCCCCCC

Undercover Cop!

Cop

Fork in the road!

to fork ad

"One foot in the grave"

"Gra foot ve"

Double Decker Bus

BUS

Bus

Two steps forward, one step

"Step, Step, pets"

An inside Job!

in B

This week, A selection of riddles! Can you find the answers?

1. What goes up and down stairs without moving?
2. Give it food and it will live; give it water and it will die.
3. I run, yet I have no legs. What am I?
4. Take one out and scratch my head, I am now black but once was red.
5. Remove the outside, cook the inside, eat the outside, throw away the inside.

Wellbeing

This week, I would like to direct you towards a competition, that will hopefully, get us all thinking about our world post COVID-19. A world that we have the power and opportunity to create and change.

What's your vision for the world after coronavirus?

The COVID-19 pandemic raises many questions about how our societies are organised, and how public health challenges can be tackled. As governments struggle to protect lives and keep our economies afloat, ambitious ideas that once seemed improbable have suddenly become surprisingly plausible.

Go to <https://www.opendemocracy.net/en/world-after-covid/> for more information about how to enter.

Finally, a little KITE Book challenge before you go!

Grab your KITE booklet and have a go at these quiz questions!

Answers will be revealed next week:

Year 10 answers for last week

English: Hamartia is a fatal flaw leading to the downfall of a tragic hero or heroine

Maths: Work out 0.4×0.15 . 0.06

Physics: Draw arrangement of particles in a solid.

(a)
