

Dear Parents/Carers

Following the government's announcement today regarding the adjustments to all secondary school opening arrangements for the New Year, please may I ask you to support the College by continuing to monitor all communication via our Website and Group Call over the coming days. This announcement has only just been shared with all school leaders across the country on the national news, and we are therefore acting in a swift manner to prepare accordingly in order that Ivybridge Community College can have a safe and smooth transition to the New Year ahead.

Please note, that all external examinations scheduled in January and February will continue to take place as normal.

Thank you to those parents/carers who are identified as critical workers and have completed the online survey, expressing your wish for your child/ren to return to College on Monday, 4 January 2020, as outlined in my letter dated Friday, 18 December 2020. You can find the survey [here](#). Please note that the College will open as normal for children who are classed as vulnerable and children of critical workers. All College transport will run as normal.

Yours faithfully

Rachel Hutchinson

Principal
