

A Level Economics

Pre-course work

Pre-course expectations

Success in Sixth Form is largely a function of the amount and quality of independent study you carry out; here's a chance to help you get the very best start to your course. We would like you to complete the work described below and hand it in to your teacher in your first lesson in September. If you have made a late change to your timetable, please complete this work within the first week of starting the course. The work should take you 5 hours.

Details of pre-course work

This [Economics Task](#) encompasses Microeconomics and looks specifically at the Oil Industry. This task will help you to combine Economic theory with current affairs. This is a key skill required at A Level as it helps to develop analysis and application skills. You can update your knowledge of oil prices [here](#). Evaluate which factor is the most important when determining oil prices. Maximum of 1000 words.

Resources to help you with this work

A suggested bridging book is:

[Donut Economics](#)

This is a book which will encourage you to start thinking about economics in the real world. Please note that this book is merely a suggestion, and you are not expected to purchase it.

Here is a link to the independent learning folder we use in Economics :
